Note: The code **ARCH** or **AR**, it is preferable to use it instead of “**AS**” to accurately reflect the integrated nature of the Architecture and Construction program or Architecture and Building Constructions program instead of Architecture and Structures. Or use **AC** it instead of “**AS**”

Arch.: Widely used in general writing, note-taking, and academic settings to mean architecture or architectural.

Ar.: Increasingly adopted as a formal professional title or prefix for licensed architects in regions like South Asia and parts of Africa.
